

PROTECTING CONFIDENTIAL BUSINESS INFORMATION, SERVERS, AND NETWORKS WHILE WORKING REMOTELY DURING THE COVID-19 PANDEMIC

April 30 | 11:00a.m. - 12:00 p.m.

With many companies operating remotely during the COVID-19 pandemic, the risk of losing confidential business information, such as trade secrets, has increased significantly and the number of cyberattacks has grown substantially. The Central Maryland Chamber of Commerce is pleased to present this panel of subject matter experts who will discuss the interplay between legal and technological aspects of protecting confidential business information, preventing cyberattacks, and responding to incidents in the event a misappropriation or breach occurs.
